CALIFORNIA PROPOSITION 65

Logomark works hard to offer products that comply with applicable environmental, health and safety measures, and is honored to partner with companies determined to lessen the impact of chemicals in our community. To our knowledge, Logomark's products meet applicable federal safety requirements as enforced by the U.S. Food and Drug Administration, the Consumer Product Safety Commission, and the Federal Communications Commission. We are also aware that items shipping into California are subject to Proposition 65, a law which requires that consumers receive warnings prior to their purchase being completed, when a product contains concentrations of chemicals defined under that law as potentially causing cancer, birth defects or other reproductive harm. New rules were adopted for Proposition 65 that clarify how and when clear and reasonable warning must be given. These updated rules go into effect August 30th, 2018 and will change the look of the Proposition 65 warning label.

Logomark and Distributor each agree consent to the

jurisdiction of any court located in Orange County, California with subject matter jurisdiction thereof, and consent and agree to the venue of the County of Orange.
